## ARRAY MODELS

Name

1. By breaking up the numbers, use an array model to multiply $17 \times 15$

2. Multiply $17 \times 15$ using the long multiplication method you learned in Primary School.

Can you see the number 170 in your diagram above? Can you see the number 85 in your diagram above?
3. Multiply $12 \times 16$ using an array model.

4. Multiply the following bigger numbers using an array model.
$24 \times 35=$
