

Online Workshop: Developing understanding of algebra using linear patterns

This online workshop will explore the best practice for introducing Algebra, the use of problem solving as a method for understanding Algebra, Algebra as a tool for understanding linear relationships, and developing algebraic skill. During the session participants

- will have an opportunity to explore using a problem solving approach to teaching Algebra
- Introducing linear relationships through growing patterns.
- Build on students prior knowledge of Number

(Please note: This is not a rerun of previous Algebra workshops.)

Thursday 31/03/21
17:30 - 19:30

Book your place online at www.pdst.ie/onlinebooking. Places will be allocated on a first come first served basis so book early to avoid disappointment.
