

## Webinar: Using GeoGebra to Support Blended Learning in Mathematics

This is the third in a series of webinars exploring approaches to the teaching of Mathematics to support student learning at the current time.

The use of GeoGebra to support students in developing a deeper understanding of Mathematical concepts and students taking greater responsibility for their learning will be explored. The value of rich Mathematical tasks, supported by the use of formative assessment techniques, will be highlighted using examples from the Geometry strand.

Date	Time	Webinar
Thursday 11th March 2021	19:00 - 20:00	Using GeoGebra to Support Blended Learning in Mathematics

**Book your place online at [www.pdst.ie/onlinebooking](http://www.pdst.ie/onlinebooking)**

Places will be allocated on a first come first served basis so please book early to avoid disappointment. This workshop will be hosted via Zoom. Participants will receive a Zoom registration link by email in advance of the webinar.
